

# Orange Institute Short Session #23

July 1-3, 2019

**Helsinki - Tallinn**  
**Innovation Ecosystem**

Probably the coolest  
Silicon Valley in the world!

# Intense, passionate, meaningful – and full of beauty.

The new **Orange Institute Short Session** offers you the unique opportunity to discover one of the most dynamic yet lesser known regions of Europe in just **2 days**.

You'll stay in both cities in top-class hotels, and travel between the two via a high-speed ferry. Our agenda is almost as fast and furious as the creative spirit here: Estonia leads the 2019 International Innovation Scorecard with Finland just behind in third.

**E-Government**

**Urban Mobility**

**FinTech**

**Healthcare**

**Start-ups**

**Venture Capital**

# Helsinki, Finland

## July 1-2, 2019

What does Finland mean to you? Nokia in the south, Father Christmas in the north ... but did you know that Helsinki is bursting with tech pioneers, investors and experts? It is also home to the masterminds behind “Angry Birds”, Rovio, just one of 500 tech start-ups. It is not just the sky that’s clear: Helsinki’s drone testing and ridesharing initiatives are a breath of fresh air too!

# Tallinn, Estonia

## July 3, 2019

Tallinn is Europe’s hottest tech scene right now, thanks in part to Skype, Transferwise, the government’s ambitious e-residency program and Uber’s major European competitors Bolt and Taxify. Self-driving cars have used public roads since 2017. 99% of Estonia’s public services are available online 24/7 and the top 20 start-ups account for an astonishing 62% of new jobs created in 2018.

# Be part of the first ever Orange Institute Short Session!

Enjoy two cities in one, for our introductory offer of 2500€ (excluding flights)

## Helsinki highlights
